

Sadnan Zaman Tandith

Full-Stack Developer (Backend-Focused)

Bangladesh (Open to Remote Work)

tandith0005@gmail.com

 GitHub: <https://github.com/Tandith0005>

 Portfolio: <https://sadnan-zaman.vercel.app>

Professional Summary

Self-taught full-stack developer based in Bangladesh, building production-ready web applications with a strong focus on backend systems. I work across the entire stack — from responsive Next.js frontends to secure Node.js APIs — with hands-on experience in authentication architectures, role-based access control, and payment integrations. I containerize with Docker and write code that ships and scales, not just code that works locally. Available for remote work across any timezone.

Technical Skills

Frontend

React, Next.js, JavaScript, HTML, CSS, Tailwind CSS

Backend

Node.js, Express.js, REST APIs, JWT Authentication, RBAC

Database & ORM

PostgreSQL, MongoDB, Prisma, Mongoose

Tools & Platforms

Docker, Firebase, Axios, Git, Vercel

Basic: AWS, Appwrite, Go

Projects

Planora – Event Management Platform

 Live: <https://level-2-assignment-5-637q.onrender.com>

 GitHub: <https://github.com/Tandith0005/Planora>

Tech: Next.js, Node.js, Express, Prisma, PostgreSQL, Stripe

- Built a full-stack application with secure authentication (JWT + refresh tokens)
 - Implemented role-based access control (Admin/User) for protected features
 - Integrated Stripe payments with webhook handling for real-time updates
 - Designed scalable backend architecture using service-layer pattern
 - Added email verification and secure API protection
-

MediStore – Online Medicine Platform

 Live: <https://level-2-assignment-4-blue.vercel.app>

 GitHub: <https://github.com/Tandith0005/MediStore>

Tech: React, Node.js, MongoDB, Firebase

- Developed an e-commerce platform with authentication and protected routes
 - Implemented dynamic product filtering and data handling
 - Built responsive UI for improved user experience
 - Managed backend data flow and API integration
-

Work Style & Strengths

- Able to work independently and deliver complete features
 - Strong focus on backend logic, security, and scalability
 - Comfortable learning new technologies quickly
 - Writes clean, maintainable, and structured code
-

Education

BBA (Hons) in Accounting,
Dhaka Central University — Currently Enrolled

HSC — Business Studies,

Government Bangla College [2024]

Full-Stack Web Development

Programming Hero — Complete Web Development Bootcamp Intensive bootcamp covering the full stack from frontend to backend, including 1000+ video lessons, industry-standard projects, and assignments across React, Node.js, MongoDB, PostgreSQL, and more.

Additional Information

- Currently improving skills in Docker, AWS, and system design
- Interested in remote backend or full-stack roles
